

# MAKE IT A SUMMER TO REMEMBER

TEXAS MARINE TECHNOLOGIES

by Lisa Pedersen | photography by Cindy Swanson

Summer days are just around the corner and now is the perfect time to make your waterfront property all you've dreamed of with a state-of-the-art boathouse or lift by Texas Marine Technologies. From simple walkway docks to cutting-edge boathouses and lifts, Texas Marine Technologies sets the standard on the lakes for complete lift systems, individual components, installation and turnkey boathouse projects, designed to fit any budget. Serving Lake Ray Hubbard, Possum Kingdom and surrounding areas, Texas Marine Technologies is the premier choice for lake construction.

## SAM JONES JOINS TEXAS MARINE TECHNOLOGIES

Since 1996, the names Sam Jones and Lake Hubbard Dock Builders have stood for quality lakefront building. Sam has built more than 75 percent of the boathouses on Lake Ray Hubbard and now his experience and expertise combines with the manufacturing excellence of Texas Marine Technologies to provide a complete line of waterfront construction solutions, including boathouses, boat and personal water craft (PWC) lifts and bulkheads. "We take great pride in the fact that we are the only company to guarantee that every project is built to the specifications in the professional engineer stamped drawings, including

*In addition to boatlift systems, Texas Marine Technologies offers a complete line of marine and dock accessories, including:*

- PWC lifts from Tomco and Polaris*
- 67 Dock floating pier systems*
- Bayco Bulk products*
- Dock chairs and ladders*
- Remotely controlled from 12V and solar remote*
- Crude tanks from Ingot Direct and much more.*

pier depth and architectural-grade standing seam roofs," said company owner Eric Jones. "We work closely with our customers throughout the planning, permitting and construction phases of the project, providing close supervision to ensure each job is being carried out properly and to the complete satisfaction for our waterfront clients."

## CUSTOM DESIGNS AND FEATURES

Specializing in design and quality workmanship, Texas Marine Technologies offers the best value and highest quality products on the market today. All components are custom fabricated to your boat or PWC, factory-built in Rockwall and installed on site, which means installation time and hassle is minimized and the whole process, from quote to completion, is just three to four weeks. Whether you are building new or renovating what is already in place, every project is customized to meet your unique needs.

## HEATH RESIDENTS GET APPROVAL TO BUILD ON THE LAKE

Heath has long been committed to preserving a special way of life, where rolling hills and the sparkling lake provide a serene backdrop for beautiful neighborhoods and distinctive homes. Now lakefront homeowners in Heath have the opportunity to add value to their homes and take full advantage of lakeside living. Make this a summer to remember—don't wait another day to start enjoying your waterfront property to its fullest. From design and engineering to permitting and construction, Texas Marine Technologies handles every detail, letting you enjoy your life at the lake.
